NEVER HAVE I EVER

Get ready for laughter, shared stories, and unforgettable moments with Never Have I Ever: Girls Edition!

Objective:

Be the first person to collect **5 Never Have I Ever Play Cards** by answering truthfully to the Never Have I Ever questions.

Gameplay:

Step 1: Place all of the Never Have I Ever Play Cards in the center of the table.

Step 2: Place the pink and white spinner in the center of the table.

Step 3: Give each player one Never Have I Ever paddle.

Step 4: Pick someone to start the game.

Step 5: The person who starts the game will spin the spinner to see who gets to play in the first round. The two options are **"All Play"** and **"You & Me."**

- If the spinner points to **"All Play"** everyone has to answer the Never Have I Ever question.
- If the spinner points to **"You & Me"** the spinner and another lucky person (as pointed by the spinner) each have to answer the Never Have I Ever question.

Step 6: Once the players are identified, select a Never Have I Ever Play Card and read it aloud.

Step 7: Everyone playing in the first round must answer truthfully by using their **"I HAVE"** or **"I HAVE NEVER"** paddles.

- If the person who started the round answers the Never Have I Ever question with **"I HAVE"** they win the card and get to keep it, and they have to take a drink. In fact, everyone that answered with "I HAVE" has to take a drink.
- If the person who started the round answers the Never Have I Ever question with **"I HAVE NEVER"** they have to discard the card and it goes in the discard pile. No drink required, but anyone that answered with "I HAVE" still has to take a drink.

Step 8: After the first round is over, the player to the left takes over, giving the spinner a spin.

Step 9: Keep playing until the first player collects 5 Never Have I Ever Play Cards. Remember, to win a Never Have I Ever Play Card, you must be the person who started the round.
