**Thanks for buying our game! We hope your kids didn't give you too much sh\*t today!**

Every game of Never Have I Ever presents a new chance to relive life's funny, embarrassing, and awkward moments, and this edition was made special just for you: the parent. The hero. Fighting through work stress, fatigue, and a slight hangover to shower your screaming, flailing, snorting little monster of a kid with the affection they only usually deserve. And why do you do it? Because you love 'em! Well, guess what? We love YOU, and we think YOU deserve a good time with friends. So sit back, laugh a lot, and try to ignore those non-stop texts from the babysitter. They'll be fine.

#### **Object of the game**

Be the first person to collect 5 Black Play Cards by answering (truthfully!) to the Never Have I Ever questions.

#### **Starting the game**

Choose the player who's wearing the coolest shirt. Good. Now, whoever's sitting to the right of this fashion icon gets to start the game. Why? Because Never Have I Ever liked a show off!

#### **Playing the game**

The person starting the game spins the spinner to determine who's playing in the first round. Once the players are determined, this same person picks a Black Play Card from the pile and reads it out loud. These cards are examples of things you may or may not have done.

#### **And now... the fun part!**

Everyone playing in the round must answer (I repeat -- truthfully!) by using their "I HAVE" or their "I HAVE NEVER" paddles. If the person who started the round answers the question with "I HAVE," they get to keep the card (Not permanently, you nutjobs. When the game's over, put them back in the box like civilized humans).

Remember, to win a Black Play Card, you MUST be the person to start the round! Everyone else's answers are just for fun. Remember fun? No?! Well you're about to have some! At the end of each round, the player to the left starts the cycle again with a spin. The first player to collect 5 Black Play Cards wins eternal glory (that lasts until you all play again).
